

TLC *STUDENT OF* *THE MONTH*

Each month TLC will select a student who has benefitted from our services.

Our Student for February is - Harlem McMillian

Harlem is pursuing a degree in Commercial Graphics. His goals are to secure a job in his field upon graduation and to eventually open his own graphic design business. He currently does freelance work on his own and is attending school to learn more about current technology in a formal setting. Harlem has visited the TLC on a regular basis since he became a student at SCC in August. He has been out of school for fourteen years, so assistance from the TLC has helped to build his confidence and allowed him to keep up with some of his faster-paced courses. He says that tutoring in Math, English, and SAMS 2007 have really benefitted him, and he appreciates that SCC offers these resources for free.

Please join us in encouraging Harlem, our February "Student of the Month".

February 2009
