

# *TLC*

## *STUDENT OF THE MONTH*

*Each month TLC will  
select a student who has  
benefitted from our  
services.*

*Our Student for September  
is -  
Patrice Thompson*

After 20 years of working as a butcher, Patrice returned to school to learn a new profession. She attended Tri-county Technical College and moved to Gaffney, but after beginning her new profession realized she needed to return to school yet again! SCC's Gaffney location was conveniently close to her home. Her major is A.S/ Pre-pharmacy/Transfer. When she's not studying and attending classes at SCC, she enjoys spending time with her husband and 3 dogs. They love to garden, take long walks around their property in the country, and go camping. Her favorite hobby is scuba diving. She learned about the TLC from her former math teacher, Ms. Freeman, and since the fall of last year, she has come for tutoring several times a week.

Patrice would like other students to know that they should not be embarrassed to ask for help with their classes, especially since some instructors actually require students to visit the TLC! Although she was nervous the first time she came for tutoring at the TLC, she quickly discovered that the tutors were nice and eager to help her with all of her subjects.

*Please join us in  
encouraging Patrice, our  
September "Student of the  
Month."  
September 2009*
