

# *TLC*

## *STUDENT OF*

### *THE MONTH*

*Each month TLC will select a student who has benefitted from our services. August's student is – Alba Quintero.*

Alba Quintero is originally from Colombia, South America. She has a bachelor's degree in economics from the University of Manizales in Colombia. Without knowing English, she moved to the United States in 2000 to further her education in the areas of business and finance. She began her studies at SCC in 2008, pursuing an associate degree in business. She plans to transfer to USC Upstate next year and complete a four-year degree in business administration. Upon graduation, Alba would like to secure a position with a large company that allows her to utilize both her bilingual and business skills.

Alba and her husband have a seven-year-old daughter. Although her husband is also from Colombia, they met here in the United States. When she is not studying, Alba enjoys spending time with her family and reading to her daughter.

Alba first learned about TLC from one of her instructors. She appreciates the one-on-one assistance that tutors are able to provide to complement classroom instruction. She finds it a good place to study as well and visits on a daily basis.

*Please join us in encouraging Alba Quintero, our August "Student of the Month."*

*August 2010*
