

TLC *STUDENTS OF* *THE MONTH*

*This month TLC
selected two students who
have benefitted from our
services:*

Angie Salazar

Carol Six

Daily visits have made Angie Salazar and Carol Six familiar faces to TLC staff and students. Forming a unique bond, these ladies usually meet in the TLC. Both were referred to the TLC by math instructors and both have chosen the health care field as a major. Carol is majoring in nursing while Angie is focusing on dental hygiene. Carol and Angie both credit their working together as study partners and the help received from the TLC staff with helping them achieve success in their studies. Carol, a wife and mother of two says, "USE IT! It's the very best thing about SCC." Angie, an engaged dog lover who has a seven-year-old son says, "The TLC has many kind, patient, friendly tutors that will take their time to help you understand."

Undoubtedly, the friendship that these two have developed while using the TLC has helped both to achieve academic success.

*Please join us in
encouraging Carol and
Angie, our
October "Students of the
Month."*

October 2010
