

TLC
STUDENT OF
THE MONTH

Each month TLC will select a student who has benefitted from our services. January's student is -Lee Hudson.

Lee Hudson is working on an associate degree in science and is planning to transfer to a four-year college in May of 2011 after he graduates from SCC. He is part of a big family (five children) and is the *only* non-twin out of all his siblings. Sports are important in his family, which includes two golf professionals. In his free time, Lee enjoys golf and other sports, singing karaoke, and spending time with friends.

He visits TLC on a regular basis, at least two times a week, to receive tutor assistance and study with friends. The help he has received in Calculus I and II, Spanish, and biology has been invaluable. Lee first heard about the resources available through TLC from friends and instructors. He says that TLC has been a great help and that every SCC student should take advantage of the free services and resources.

Please join us in encouraging Lee Hudson, January's "Student of the Month."

January 2011
