

TLC **STUDENT OF** **THE MONTH**

Each month TLC will select a student (s) who have benefitted from our services. June's students are McKala and McKenzie Rhymer.

According to astrology, Gemini is the sign for June, and Gemini is Latin for twin. Coincidentally, TLC student of the month is a duo: twins McKala and McKenzie Rhymer. While most young girls spend the summer lounging around, these two 16 year-olds spend their weekdays in class and at the TLC. Yes, these identical twins are only 16 and already in college. They are both working towards becoming Nurse Anesthetists. They plan on transferring to the Medical University of South Carolina next September.

They learned about the TLC from their mom, Holly Rhymer. She utilized the TLC while taking biology classes. McKenzie and McKala claim their mom lived in the TLC while attending SCC. They are following her example by regularly visiting the TLC. McKala stated, "They help me to understand any math question without making me feel silly." Math is not the only subject tutors assist them with. McKenzie avowed, "The TLC is a wonderful place. I never would have made it through my math or English classes without the help from the awesome tutors."

Please join the TLC staff in congratulating these two unique young ladies on being the June TLC Student(s) of the Month.
