

JUNE

TLC STUDENT OF THE MONTH

Each month TLC will select a student who has benefitted from our services. June's student is Patricia Lewis.

Patricia Lewis, the TLC student of the month, proves that age is just a number. After failing a Ham radio test, which was full of electrical questions, Patricia decided to attend SCC for certification in electronics. Exhibiting that you are never too old to learn, Patricia will celebrate what she calls her "75th birthday anniversary" on June 29th. She is a bright spot on campus and visits the TLC at least twice a week.

This mother of five boys and grandmother of seven also has five dogs. These are no ordinary dogs; Patricia has rescued these dogs. Of these, two are blind poodles, one of which is toothless; both are over 18 years old. Patricia also manages the property where she lives. This consists of weed whacking, cleaning gutters, scraping paint, and other grounds keeping work.

Helping others is just part of staying young. Patricia said desire and excitement for life are essential. She has sailed the Aegean Sea in Greece, parasailed in Cancun, and learned to fly a plane in Los Angeles. She regularly works out at the Swim Center to stay fit and keep her body trim. She gets around town on her three-wheel moped.

Patricia visits the TLC a couple times a week. She learned about the TLC during orientation. Her advice to fellow students includes being excited about life and doing more one-on-one talking (conversing). The TLC offers the one-on-one tutoring which allows the students to discuss their coursework with a friendly knowledgeable source.

Please join us in encouraging ,
Patricia Lewis
June's "Student of the
Month."
