

# JULY

## TLC STUDENT OF THE MONTH

Each month TLC will select a student who has benefitted from our services. July's student is – Tamara Campbell.

After twenty years of contemplation, Tamara Campbell decided that furthering her education was worth the challenge. Tamara, a student pursuing an associates degree in science from SCC, is our July Student of the Month who has worked diligently this summer on math. Busy is how she describes her life with 2 boys (ages 15 and 8), baseball and football schedules and games, and her job as a nail technician.

After learning about the TLC from an online instructor, Tamara went from struggling in college algebra to beaming with pride. The assistance in statistics she received also paid off with grades she never thought she would receive. When asked what she would share with others concerning the TLC, Tamara responded with, "I would tell students to take the time out of their schedule and take advantage of the wonderful opportunity the TLC offers." We salute Tamara and her exemplary academic work ethic!

Please join us in encouraging,  
Tamara Campbell,  
July's "Student of the Month."  
July 2013
