

# June

## Student of the Month

### TLC STUDENT OF THE MONTH JUNE 2014

Each month TLC will select a student who has benefitted from our services. June's student is Hunter Camp.

Summer is vacation time for many but not for Student of the Month, Hunter Camp. He is tackling Math 110, Math 111, and two chemistry classes this summer. After being out of high school for almost eight years and working minimum wage jobs, Hunter decided it was time to get serious about his education, and serious is an understatement, as he is now a member of the Phi Theta Kappa Honor Society and has been on the dean's list every semester. He started SCC in fall 2013 and plans to transfer to Clemson University to achieve a degree in chemical engineering. Two people that Hunter finds are inspiration to achieve his goals are his grandmother, whom he describes as his rock and foundation, and his 3-year-old daughter, whom he describes as beautiful and inspiring. His first semester Hunter was directed to the TLC by another student; now he visits the TLC Monday through Thursday and stays until all of his homework and study is complete. He finds that the quiet atmosphere, the computers, and the assistance all help him to get the most efficient use of his time. Hunter says, "The tutors at the TLC are more than just tutors. They are instructors, advisors, cheerleaders, and friends that want to see everyone succeed. They have helped me with every question I've had and much more." As with so many of our students, we are so excited to take part in Hunter's future.

Please join us in encouraging Hunter Camp, June's "Student of the Month."
