

March 2016

TLC Student OF THE MONTH

*Each month TLC
selects a student who has
benefitted from our services.*

*Our March student is **Tiffany
Northrup!***

A satisfying benefit of being in The Learning Center is seeing students grow and attain their goals, and our Student of the Month, Tiffany Northrup, is certainly progressing toward her goal. Tiffany moved here from Grand Junction, Colorado to be closer to family before becoming a mom. Already having the training and experience of being a dental assistant, Tiffany later decided that nursing would be a lucrative and satisfying career to work toward. She also has the experience of working now as a caregiver in home health. Aside from going to SCC, Tiffany loves to cook and be outdoors with her two-year-old daughter; she also loves learning about Southern history. Tiffany's advice to other SCC students regarding the TLC is, "All the staff is willing to help you if you are willing to help yourself." May Tiffany's enthusiasm and motivation be contagious.
