

The Learning Center

Congratulations
to Markitta
Johnson!
March 2017

One never knows what will lead a student to SCC, but for Markitta Johnson, faith and another school are what led to her attendance on our campus. Being a busy mom of two, styling hair, and working caring for the elderly doesn't leave her with much free time, but Markitta is determined to complete our patient care technician program. After learning about the TLC from an instructor and test proctor on campus, Markitta started seeking out tutoring in biology and now visits two to three days per week.

She credits the TLC staff with making the difficult clearer and giving her the courage to persevere. Markitta describes our staff as "generous and helpful to everyone," so no wonder we love her. Congratulations and thank you to our student of the month, Markitta Johnson!
